In accordance with the terms of the Intergovernmental Agreement establishing this entity, we hereby submit the Comprehensive Annual Financial Report of the Chicago Executive Airport (hereinafter referred to as "the Airport") for the fiscal year ended April 30, 2017.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

To the best of our knowledge and belief, the enclosed data is accurate in all material respects. Further, the enclosed data is prepared in accordance with generally accepted accounting principles and is presented in a manner to disclose the financial position and results of operations of the Airport for the year then ended.

Sikich LLP, Certified Public Accountants, has issued an unqualified opinion on the Chicago Executive Airport's financial statements for the year ended April 30, 2017. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE AIRPORT

The Airport, founded in 1925 as Gauthier's Flying Field, was acquired by Priester Aviation in 1953. The City of Prospect Heights and the Village of Wheeling purchased the airport on December 26, 1986. The name was changed in October 2006 to Chicago Executive Airport, to better reflect its customer base and location. It is the third busiest airport in the Chicago area based on flight operations. The City of Prospect Heights and the Village of Wheeling (hereinafter collectively referred to as "the Municipalities") executed an amended Intergovernmental Agreement on July 1, 2005. This Agreement authorizes the joint establishment and operation of the Chicago Executive Airport ("the Airport"). Both Municipalities identify the Airport as a Joint Venture, pursuant to the criteria set forth by the Governmental Accounting Standards Board ("GASB"), in their respective Annual Financial Reports.

The Board of Directors was created to establish a body for the control and operation of the Airport by the Municipalities. It consists of seven directors: the Chairman, appointed jointly by the Mayor of the City and the President of the Village: three appointed, with approval of the City Council, by the Mayor of the City of Prospect Heights; and three appointed, with approval of the Board of Trustees, by the Village President of the Village of Wheeling. The Board elects, from its members, a Vice Chairman, Treasurer, and Secretary, who preside over the Board as officers.

The Chicago Executive Airport budget is recommended by resolution of the Chicago Executive Airport Board of Directors for adoption by both Municipalities in accordance with the Intergovernmental Agreement. This Agreement requires that neither Municipality shall be required to expend funds other than Airport Revenue for the operation of the Airport. The budget is prepared using an accrual basis and recognizes revenues and expenditures earned or incurred during the fiscal year.

The Airport has an April 30 fiscal year ending date. Accordingly, the budget must be adopted by both Municipalities before May 1, the beginning date of the new fiscal year. Should this not happen, the Board is authorized to proceed with funding and expenditures on a temporary basis using the prior year's approved budget.

ECONOMIC CONDITIONS AND OUTLOOK

Operating revenues increased in FY17 by \$648,022 (16.3%). Total operating expenses decreased; \$159,319 (-5.7%). Administrative expenses were up \$24,776 or 1.8% and Operations expenses decreased by \$184,095 or -13.2% from FY16. The net result from operations was an increase of \$807,341 (68.3%) vs. last year's operating income. After depreciation and amortization, there was again an operating loss this year. A more detailed discussion of the financial results is contained in Management's Discussion and Analysis found in the Financial Section of this report.

The recovery of the general aviation industry is continuing. Flight operations are down slightly from FY16; approximately 2,500. Though flight operations are slightly down, primary operations statistics revealed Airport operations (landings and takeoffs) have been hovering just under 80,000 for past several years. The annual fuel flowage however, continues to increase. It is up by 272,291 gallons to 5,719,292 gallons from FY16. This is an increase of 5.00% over last year. U.S. Customs Service inspections decreased by 6 this year, a 1.27% decline, with 467 inspections conducted. Customs inspections correlate with the international aviation activity of our business based aircraft.

Regardless of economic conditions, the Airport continues to remain focused on its foremost priorities -- **Safety, Security** and **Noise Reduction**. Additionally, the Airport is cognizant of its fiduciary responsibility to the City of Prospect Heights and the Village of Wheeling to maintain a financially sound and self-supporting entity.

LONG-TERM FINANCIAL PLANNING

To augment our financial planning process, five-year projections will be developed each year for both operating and capital budget needs as a part of the budget development process. The projections allow us to determine the impact of capital projects on future operating expense budgets, future revenue requirements and plans to achieve them.

RELEVANT FINANCIAL POLICES

The Airport's approved Business Plan requires that the unrestricted portion of our net position at year-end meet or exceed a particular balance. This balance includes the reserve amounts required for the Airport's share of capital projects (\$536,389), grant service (\$344,400), plus 25% of budgeted operating expenditures (\$746,619). The required total of \$1,627,408 must be available for both capital projects and operating reserves. Our available cash and cash equivalent balance at year-end was \$4,969,487, an amount above our needs by \$3,342,079.

In another area, the Airport continues to record depreciation on contributed capital assets.

MAJOR INITIATIVES

To further enhance Airport safety, security and noise reduction, development continued this year and will continue for many years to come. Planned initiatives are:

- An engineered material arresting system (EMAS) has been placed at both ends of our longest runway to help prevent an aircraft from overshooting the ends of the runway. The first phase of this project was funded for FY14 for the south end of runway 16/34. Work began in FY15 and was completed in FY17.
- → An EMAS bed for the north end of 16/34 was funded in FY15. Like the south end bed, work was completed in FY17. Now both ends of our main runway are protected with this important safety enhancement.
- → Work continued on filling in the grass islands in the East Quad began in FY16. The grass is being replaced by concrete to better allow aircraft movement in that area. This work also was completed in FY17.
- → Work continued on an update of the Airport's long-term Master Plan which has not been updated in several years. This plan looks at development impacts beyond the Airport borders. Results will answer questions as to the best use of Airport property and how to continually serve the region well into the future.
- The Airport also began an update to its Noise Exposure Map (NEM). This update will allow the Airport to better understand the impacts noise has on the surrounding communities.
- → Upcoming improvements will include a Bypass Taxiway near the Lima 1 intersection. This bypass will allow departing aircraft to get around other aircraft who may be waiting for a clearance to depart.

We believe these, and future initiatives, will enhance the safety of the Airport, reduce noise for our neighbors, and supplement revenue sources.

AWARDS AND ACHIEVEMENTS

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the Chicago Executive Airport for its comprehensive annual financial report for the fiscal year ended April 30, 2016, its 27th such award. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report ("CAFR"), whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of only one year.

We believe that our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

ACKNOWLEDGMENT

The preparation of this report would not have been possible without the dedicated service of the finance and administration department. Also, credit must be given to the Municipalities and the Chicago Executive Airport Board of Directors for their unfailing support for maintaining the highest standards of professionalism in the management of the Airport finances.

INDEPENDENT AUDITOR'S REPORT

The Honorable Chairman Chicago Executive Airport Directors Prospect Heights, Illinois Wheeling, Illinois

We have audited the accompanying financial statements of the Chicago Executive Airport (the Airport) as of and for the years ended April 30, 2017 and 2016, and the related notes to financial statements which collectively comprise the Airport's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Airport's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Chicago Executive Airport, as of April 30, 2017 and 2016, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Airport. The introductory section, supplemental information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical information listed in the table of contents was not audited by us, and accordingly, we do not express an opinion thereon.

Sikich LLP

Naperville, Illinois October 23, 2017

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Management's Discussion and Analysis

The management of Chicago Executive Airport offers readers of our financial statements the following narrative overview and analysis of our financial activities for the year ended April 30, 2017. The following information should be considered along with additional information contained in our letter of transmittal found on pages v-viii of this report.

Basic Financial Statements

Our basic financial statements are prepared using proprietary fund (enterprise fund) accounting that uses the same basis of accounting as private-sector business enterprises. The Airport is operated under one enterprise fund, the Joint Airport Fund. Under this method of accounting an economic resources measurement focus and an accrual basis of accounting is used. Revenue is recorded when earned and expenses are recorded when incurred. The basic financial statements include a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows. These are followed by notes to the financial statements. In addition to the basic financial statements, this report also contains required supplementary information and a statistical section that are useful in understanding the overall operations of the Airport.

The statement of net position presents information on the assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Airport is improving or deteriorating.

The statement of revenues, expenses, and changes in net position reports the operating revenues and expenses and nonoperating revenue and expenses of the Airport for the fiscal year with the difference – the net income or loss – being combined with any capital contributions to determine the net change in position for fiscal year. That change, combined with last year-end's net position total, reconciles to the net position total at the end of this fiscal year.

The statement of cash flows reports cash and cash equivalent activities for the fiscal year resulting from operating activities, capital and related financing activities, and investing activities. The net result of these activities added to the beginning of the year cash balance reconciles to the cash and cash equivalent balance at the end of the current fiscal year. Contrary to the other basic financial statements, this statement is prepared on a cash basis.

Financial Highlights

- Assets exceeded liabilities by \$90,994,704 (total net position) at the close of the fiscal year. Of this amount, \$390,409 is unrestricted but designated for future sewer repairs, \$428,790 is unrestricted but designated for the Capital Equipment Reserve Fund (CERF) and \$370,796 is unrestricted but designated for building improvements in the Building Reserve Fund, newly established in FY16. \$1,933,163 is unrestricted and available to meet ongoing and future obligations of the Airport including its share of capital projects.
- → Total Net Position decreased \$130,598. This is partially a function of how assets are being moved from Improvements in Progress, a non-depreciating category, to Infrastructure and Airport Improvements which are depreciable.
- → Operating Income before depreciation and amortization is \$1,989,757, an increase of \$807,341 or 68.3% from the prior year. Revenues increased by \$666,527 in 2017. That, coupled with a decrease in Operating Expenses caused the increase in Operating Income.
- → Net operating loss, after depreciation and amortization, is \$921,062, an improvement over last year of \$871,618.
- → The Statement of Cash Flows identifies the sources and uses of cash activity for the fiscal year. Cash and cash equivalents increased a net of \$961,548 for the year.

Financial Information

Net Position: The following schedule presents a summary of net position comparisons for the fiscal years ended April 30, 2017, 2016 and 2015;

| | April 30, | April 30, | April 30, |
|----------------------------|--------------|--------------|--------------|
| | <u>2017</u> | <u>2016</u> | <u>2015</u> |
| Current and other assets | \$ 5,363,881 | \$ 4,714,964 | \$ 3,184,720 |
| Capital assets | 91,208,881 | 92,688,379 | 94,195,370 |
| Total assets | 96,572,762 | 97,403,343 | 97,380,090 |
| Current liabilities | 789,349 | 1,135,632 | 924,465 |
| Long-term liabilities | 4,788,709 | 5,142,409 | 4,007,163 |
| Total liabilities | 5,578,058 | 6,278,041 | 4,931,628 |
| Net position: | | | |
| Invested in capital assets | 87,871,546 | 89,031,839 | 90,222,064 |
| Unrestricted | 3,123,157 | 2,093,463 | 2,226,398 |
| Total net position | 90,994,703 | 91,125,302 | 92,448,462 |

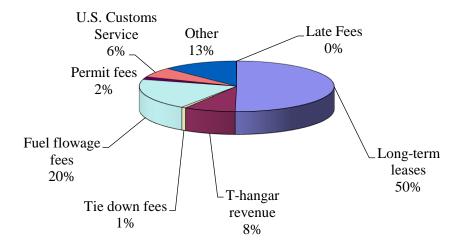

The largest portion of the Airport's net position, \$87,871,546, is invested in capital assets (e.g., land, buildings, equipment, infrastructure and improvements). Outstanding debt in the amount of \$3,337,335 is attributable to these assets, of which \$321,699 is considered current and \$3,015,636 a long-term liability. The Airport's capital assets represent land, hangar space, taxiways, runways, and equipment. These are maintained for airport users and fixed-base operators, the latter who provide services to aircraft owners.

A new Net Position sub category was started in FY16: Unrestricted, Designated for Future Building Improvements or Replacement. Its balance at year-end FY17 is \$370,796. The intent of this reserve, like other sub reserves the airport has, is to smooth the annual budget impact of replacing or improving various airport buildings. This will help to alleviate significant unusual budget expenditures in any one year.

The Net Position sub category started in FY13: Called the Capital Equipment Reserve Fund (CERF), is unrestricted, and designated for future capital equipment replacement. Its balance at year-end FY17 is \$428,790. This is reflective of the purchase of a new Snow Broom in FY17 (pictured on the front cover). The reserve's intent is also to smooth the annual budget impact of replacing various airport equipment and it did just that in FY17. The purchase of the broom was funded from this reserve with no impact to operating revenue.

The Airport also has a Sewer Replacement reserve and its balance at the end of FY17 is \$390,409. These are the funds set aside in the Airport's Sewer Reserve Fund for future repairs to the sewer system. A sewer pipe was replaced in FY17 and the entire expense of this repair was funded out of this reserve with no impact to operating revenue. The remaining unrestricted net position of \$1,933,163 represent resources available to meet both the Airport's current and capital obligations. One primary use of these assets is to provide for the Airport's share of capital project costs, most of which have grant funding for up to 95% federal and state funds.

Current liabilities have decreased \$346,283 in FY17.

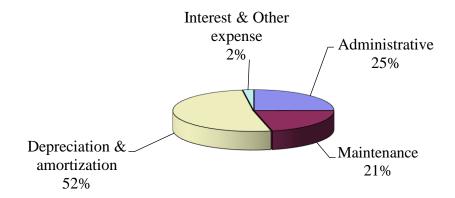

The following schedule presents a summary of revenues for the fiscal years ended April 30, 2017, 2016 and 2015:

| | April 30, | April 30, | April 30, |
|--------------------------|--------------|--------------|--------------|
| | <u>2017</u> | <u>2016</u> | <u>2015</u> |
| Operating revenues | | | |
| Long-term leases* | \$ 2,317,191 | \$ 2,210,835 | \$ 2,254,157 |
| T-hangar revenues | 393,575 | 366,643 | 358,483 |
| Tiedown fees | 33,020 | 31,974 | 31,750 |
| Fuel flowage fees | 914,777 | 801,728 | 707,941 |
| Permit fees | 80,060 | 90,662 | 82,971 |
| U.S. Customs Service | 291,755 | 294,077 | 306,857 |
| Other | 578,170 | 165,213 | 141,737 |
| Late charges | 3,587 | 2,981 | 6,870 |
| Total operating revenues | 4,612,135 | 3,964,113 | 3,890,766 |
| Nonoperating revenues | | | |
| Investment income | 10,846 | 6,352 | 6,591 |
| Other Income | 18,990 | 4,100 | - |
| Sewer Assessments | 26,123 | 27,002 | 54,273 |
| Total revenues | \$ 4,668,094 | \$ 4,001,567 | \$ 3,951,630 |

This past year, operating revenues increased by \$648,022, or 16.3%. Long-term leases are up by \$106,356, or 4.8%. T-hangar revenue has increased due to increased occupancy; fuel flowage fees increased by \$113,049, or 14.1% due to increased flight activity; and U.S. Customs fees decreased slightly \$2,322 or -0.8%. We had no new tenant development this year so the sewer assessments this year are regular sewer maintenance charges we charge our tenants. Investment income is up slightly due to larger investable reserves.

Expenses: The following chart shows the major categories of operating expenses for the year ended April 30, 2017:

The following schedule presents a summary of expenses for the fiscal years ended April 30, 2017, 2016 and 2015:

| | April 30, | April 30, | April 30, |
|--------------------------------|--------------|--------------|--------------|
| | <u>2017</u> | <u>2016</u> | <u>2015</u> |
| Operating expenses | | | |
| Administration & Finance | \$ 1,411,557 | \$ 1,386,781 | \$ 1,405,827 |
| Operations & Maintenance | 1,210,821 | 1,394,916 | 1,189,104 |
| Total operating expenses | 2,622,378 | 2,781,697 | 2,594,931 |
| | | | |
| Other expenses | | | |
| Depreciation | 916,225 | 974,794 | 966,287 |
| Depreciation on contributed | | | |
| capital assets | 1,980,370 | 1,986,078 | 1,985,178 |
| Amortization | 14,224 | 14,224 | 14,224 |
| Interest expense | 123,160 | 137,450 | 188,072 |
| Other expense | | | |
| Loss on sale of capital assets | - | - | - |
| Total other expenses | 3,033,979 | 3,112,546 | 3,153,761 |
| m 1 | Φ 5 65 6 257 | Φ 5004242 | Φ 5.7.40.602 |
| Total expenses | \$ 5,656,357 | \$ 5,894,243 | \$ 5,748,692 |

Total operating expenses decreased from last year by \$159,319 or -5.7%. In the Administration & Finance department, expenses increased by \$24,776, or 1.8%. The Personnel Services section is down approximately \$13,000. The Contractual Services category is up approximately \$12,000. Commodities expense is down about \$16,000 from FY16 but the other expense category has increased around \$40,000 due to increases in lease development and increased NBAA expenses from FY16.

In the Operations & Maintenance department, total expenses decreased \$184,095, or -13.2%. This difference is caused by the inclusion of EMAS Block Replacement in FY16. These blocks were replaced but the entire cost was reimbursed by insurance after FY16 was over. IF this amount is not included in the operating results, Operation & Maintenance division expenses actually increase by just over \$146,000. Personnel Services are above last year by \$115,000. This is due to staffing changes where one individual, originally hired as an intern, was reclassified to a permanent full-time employee and another was promoted. Contractual Services are up from FY16 by approximately \$49,000. We had additional building repairs and pavement markings this year. Detailed operating expense schedules can be found in the Supplementary Information Section of this report.

Other expenses – depreciation on contributed capital assets and amortization has increased slightly over the past years due to new projects being completed and placed in service. For the Airport, this required presentation of depreciation on contributed capital assets is awkward and burdensome when one considers most of our capital expenses are from federal and state grants which are shown separately on our financial statements. Without those grants, the Airport would not be able to acquire the capital assets that were funded.

Additionally, interest expense decreased by \$14,290 or -10.4% from FY16. The primary reason for this decrease is the continued reduction in loan balances on borrowings. In FY16, staff secured a reduction in the interest rates on these loans. Rather than reducing the amount paid to the lending institutions we chose to include a larger principle amount with each payment and accelerate the paydown of these notes. No new debt was issued during the year. Investment income increased \$4,494, or 70.7% this year due to larger investible balance and an increase in deposit rates.

Capital Assets: During FY17, the Airport expended a net of \$1,294,883 on capital assets. Several major projects were completed in FY17. The EMAS beds at both ends of Runway 16/34 are now complete and in operation. The grass islands in the ramp on the East Quadrant have are filled in making the ramp safer for taxiing aircraft. Improvements in progress include a bypass taxiway at the north end of the Lima taxiway. It is expected to be finished in FY18. A summary of changes in capital assets is found in Note 3 to the financial statements.

Other Financial Results: The following schedule presents a summary of other pertinent financial data for the fiscal years ended April 30, 2017, 2016 and 2015:

| | April 30, | April 30, April 30, April 30, | |
|---------------------------------|--------------|-------------------------------|----------------|
| | <u>2017</u> | <u>2016</u> | <u>2015</u> |
| Net (Loss) Before Contributions | \$ (988,263) | \$ (1,892,676) | \$ (1,797,062) |
| | | | |
| Capital Contributions | 857,665 | 569,516 | 1,221,412 |
| | | | |
| Change in Net Position | (130,598) | (1,323,160) | (575,650) |
| | | | |
| Net Position, May 1 | 91,125,302 | 92,448,462 | 93,024,112 |
| | | | |
| Net Position, April 30 | 90,994,704 | 91,125,302 | 92,448,462 |

Contributions of capital items increased by \$288,149 to \$857,665. The contributions for capital items come from Federal and State grants for the various airport projects. This funding varies greatly year-to-year as projects are completed. The decrease in net position of \$(130,598) is primarily driven by depreciation of contributed capital assets that reduces the invested in capital assets total.

Long-Term Debt: Currently, the Airport has three long-term debts outstanding with a remaining principal balance as of April 30, 2017 of \$3,337,335. The first, \$621,341, represents an outstanding balance for a loan taken out in January 2005 to finance the construction of the SW T-hangars and taxiway; the second, \$1,108,851, is the note balance for a refinance of a prior loan for land acquisition; and the third, \$1,607,143, is a note for constructing the northeast quadrant T-hangars, which opened in November 2010. Details of these outstanding loans and notes payable can be found in Note 4, Long-Term Debt, found in this report.

Requests for Information: The financial report is intended to provide an overview of the finances of Chicago Executive Airport for those with an interest in this organization. Questions concerning any information contained in this report may be directed to the Chicago Executive Airport, 1020 Plant Road, Wheeling, Illinois 60090, attention: Director of Finance.

NOTES TO FINANCIAL STATEMENTS

April 30, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Palwaukee Municipal Airport Commission was created on February 26, 1985 pursuant to Chapter 24, Paragraph 11-103-1 of the Illinois Compiled Statutes (ILCS), to organize, operate and maintain the airport as a public general aviation facility. The name was changed to Chicago Executive Airport (the Airport) in August 2006. The Airport is an intergovernmental cooperative created under Illinois law to allow the City of Prospect Heights, Illinois and the Village of Wheeling, Illinois (collectively, the Municipalities) joint ownership and administration of the Airport. The Municipalities account for the Airport as a proprietary joint venture.

The Municipalities have entered into agreements with the Federal Aviation Administration of the United States of America and the State of Illinois to sponsor projects for the acquisition and development of the Airport. Although assets are legally held in the name of the Municipalities, such assets are recorded in the Airport's financial statements to present the overall financial position and operations of the Airport. Airport revenues are solely restricted to funding airport development and airport maintenance expenses. The duration of the Airport shall be for the term of 20 years or the useful life of the Airport, whichever is longer, unless sooner terminated and dissolved by mutual agreement of the Municipalities or by operation of law.

The financial statements of the Airport have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Airport's accounting policies are described below.

a. Reporting Entity

Effective 2014, the Airport adopted the provisions of GASB Statement No. 61, *The Financial Reporting Entity*. As defined by generally accepted accounting principles established by GASB, the financial reporting entity consists of the primary government, as well as its component units, which are legally separate organizations for which the following three criteria exist:

1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units or its constituents.

a. Reporting Entity (Continued)

- 2) The potential component unit provides a financial benefit or imposes a financial burden on the primary government.
- 3) The economic resources received or held by an individual organization that the specific primary government or its component units, is entitled to or has the ability to otherwise access, are significant to that primary government.

The accompanying financial statements represent the Airport (the primary government) only since the Airport does not have component units. The Airport is considered a joint venture of its owners, the Municipalities.

b. Basis of Accounting

The accounting policies for the Airport conform to generally accepted accounting principles applicable to proprietary funds of governmental units. The financial records of the Airport are maintained by utilizing the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time they are incurred.

The Airport's financial statements are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Proprietary fund operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Airport are charges to customers for sales and rent. Operating expenses for the Airport include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

c. Cash and Cash Equivalents

For purposes of the statements of cash flows, the Airport considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

d. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Airport categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Airport held no investments to measure at fair value at April 30, 2017.

e. Receivables

Receivables, including the applicable allowance for uncollectible, accounts are as follows:

| | 2017 | 2016 | |
|--|--------------------------|--------------------------|--|
| Accounts receivable Allowance for uncollectible accounts | \$ 256,768 (6,000) | \$ 459,188 (6,000) | |
| NET RECEIVABLES | \$ 250,768 | \$ 453,188 | |

f. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid expenses.

g. Capital Assets

Capital assets comprising buildings, office equipment, vehicles and airport improvements are recorded at cost. All expenditures for equipment over \$2,000 are capitalized. If actual cost cannot be determined, estimated historical cost is used. Donated capital assets are valued at acquisition value at the date donated. Depreciation of capital assets has been provided for over the estimated useful lives using the straight-line method. Estimated useful lives are as follows:

| | Y ears |
|-------------------------------------|--------|
| | |
| Buildings and building improvements | 10-30 |
| Infrastructure | 3-20 |
| Improvements | 3-20 |
| Vehicles and equipment | 3-20 |

g. Capital Assets (Continued)

Maintenance and repair expenses are charged to operating expense as incurred. Significant betterments and improvements are capitalized and depreciated over their estimated useful lives.

h. Federal and State Grant Contributions

Capital assets purchased with funds contributed by the federal and state governments through Airport Improvement Grants are recorded at cost. For financial statement presentation purposes, grant contributions are reported after net income as the amount contributed by the federal and state governments. Note 6 contains contributed capital asset detail.

i. Compensated Absences

Airport employees are granted vacation pay and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation time. Accumulated unpaid sick leave is not paid to an employee in the event of termination.

j. Operating Revenues and Direct Expenses

Direct expenses are those that are clearly identifiable with a specific function or segment. Operating revenues include charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. Grants and contributions that are of a particular function or segment are reported as non-operating revenues or capital contributions.

k. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses). In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Airport does not have any items that qualify for reporting in this category.

1. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

a. Permitted Deposits and Investments

Statutes authorize the Airport to make deposits/invest in: insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds (a money market fund created by the State Legislature under the control of the State Treasurer that maintains a \$1 share value).

It is the policy of the Airport to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Airport and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are safety of principal, liquidity, diversification, rate of return and public trust.

b. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Airport's deposits may not be returned to it. The Airport's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by the Airport or in safekeeping with a third party or escrow agent and should be invested in either United States Government securities or obligations of federal agencies.

2. DEPOSITS AND INVESTMENTS (Continued)

c. Investments

In accordance with its investment policy, the Airport limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market and limiting the maturity of all investments to less than 15 months.

The Airport limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by maintaining a minimal balance in the each institution. Illinois Funds are rated AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Airport will not be able to recover the value of its investments that are in possession of an outside party. The Airport's investment policy does not discuss custodial credit risk of investments; however, to limit its exposure, the Airport has not invested in security transactions that are exposed to custodial credit risk.

Concentration of credit risk is the risk that the Airport has too high a percentage of their investments invested in one type of investment. The Airport's investment policy requires diversification of investment to avoid unreasonable risk. At April 30, 2017, the Airport did not have greater than 5% of its overall portfolio invested in any single investment type.

3. CAPITAL ASSETS

a. Summary of Changes in Capital Assets

A summary of capital assets for the year ended April 30, 2017 is as follows:

| | May 1, | | | April 30, |

| TOTAL | \$ | 621,341 | \$ | 94,130 | \$ | 3,337,335 | \$ | 678,884 | |

5. RISK MANAGEMENT

The Airport is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three fiscal years.

6. CONTRIBUTED CAPITAL ASSETS

The Airport is the recipient of several Airport Improvement Grants for airport facility acquisition and capital improvements. The grant agreements provide for the following levels of participation:

| Federal share | 90.0% to 95.0% |
|---------------|----------------|
| State share | 2.5% to 5.0% |
| Local share | 2.5% to 5.0% |

6. CONTRIBUTED CAPITAL ASSETS (Continued)

At April 30, 2017 and 2016, the balances of contributed capital assets are as follows:

| | Federal | Federal State | | Other Dor | | onated | Total |
|---------------------------------------|---------------|---------------|----|-----------|----|--------|----------------|
| BALANCE, APRIL 30, 2015 | \$ 94,074,735 | \$ 10,793,420 | \$ | 244,144 | \$ | 11,000 | \$ 105,123,299 |
| Contributed assets/grants during 2016 | 512,564 | 28,476 | | - | | - | 541,040 |
| BALANCE, APRIL 30, 2016 | 94,587,299 | 10,821,896 | | 244,144 | | 11,000 | 105,664,339 |
| Contributed assets/grants during 2017 | 507,270 | 28,182 | | - | | - | 535,452 |
| BALANCE, APRIL 30, 2017 | \$ 95,094,569 | \$ 10,850,078 | \$ | 244,144 | \$ | 11,000 | \$ 106,199,791 |

Contributed capital assets is a component of net position "net investment in capital assets."

7. DEFINED CONTRIBUTION PLAN

The Airport provides pension benefits for all of its full-time employees through a defined contribution plan. This plan was established with the International City Managers Association Retirement Trust (the Trust), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for state and local governments and their instrumentalities throughout the United States of America. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The Airport's policy requires that both the employee and the Airport contribute an amount equal to 4.5% of the employee's base salary at the end of every bi-weekly payroll period.

The Airport's contributions for each employee (and interest allocated to the employee's account) are incrementally vested 20% annually, after three years of service. The Airport's nonvested contributions and the interest forfeited by employees who leave employment before seven years of service are used to reduce the Airport's contribution requirement to the remaining employees. The Board of Directors is responsible for establishing and amending the plan provisions.

The Airport's payroll and contributions for the fiscal years ended April 30, 2017 and 2016 are:

| | 2017 | 2016 |
|---------------------------------|---------------|---------------|
| | | |
| Airport's total payroll | \$ 881,811 | \$ 821,967 |
| Subject to contribution | 860,997 | 792,044 |
| Airport's contribution | 38,031 | 25,719 |
| Forfeiture | - | 9,923 |
| Covered employees' contribution | 38,031 | 35,642 |

NOTES TO FINANCIAL STATEMENTS (Continued)

8. CONTINGENT LIABILITIES

Litigation

The Airport is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Airport's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Airport.

9. OTHER POSTEMPLOYMENT BENEFITS

The Airport has evaluated its potential other postemployment benefits liability. The Airport provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statues, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the Airport are required to pay 100% of the current premium. However, no former employees have chosen to stay in the Airport's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Additionally, the Airport had no former employees for which the Airport was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the Airport has not recorded any postemployment benefit liability as of April 30, 2017.

STATISTICAL SECTION

This part of the Chicago Executive Airport's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information displays about the Airport's overall financial health.

| <u>Contents</u> | Page(s) |
|---|---------|
| Financial Trends These schedules contain trend information to help the reader understand how the Airport's financial performance and well-being have been changed over time. | 24-27 |
| Revenue Capacity These schedules contain information to help the reader assess the Airport's most significant local revenue source. | 28-32 |
| Debt Capacity | |
| These schedules present information to help the reader assess the affordability of the Airport's current levels of outstanding debt and the Airport's ability to issue additional debt in the future. | 33-36 |
| Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Airport's financial activities take place. | 37-40 |
| Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the Airport's financial report relates to the services the Airport provides and the activities it performs. | 41-45 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

¹ Bank loan jointly executed by both owning-communities for the Airport.

Notes: The Intergovernmental Agreement establishing the Airport does not allow the Airport to issue any debt. All airport debt is issued by either, or both, of the owning-communities, the Municipalities; however, the Airport is responsible for retirement of the debt. In the case of general obligation (GO) debt, the Airport's legal debt limitation is predicated on that of the two municipalities. The City of Prospect Heights is a non-home-rule municipality; therefore, it is limited to the amount of debt it can issue without referendum approval. The limitation is based on the total equalized assessed valuation (EAV) of real property located within the municipalities. The municipalities are allowed to issue 0.8% of the EAV total in general obligation debt without referendum approval. Certain financing vehicles are exempt from limitations of these types. The Village of Wheeling in an Illinois home rule community and has no statutory limit. As a result, the acceptable level of debt outstanding for the Village of Wheeling is solely determined by the Village Board. By every measure or ratio of debt generally considered, the Village of Wheeling's debt level is very low. Accordingly, the general obligation debt limit of the Airport is also that of the City of Prospect Heights.

² Revenue note executed by the Village of Wheeling only for the Airport.
