

**CHICAGO EXECUTIVE AIRPORT
AIRPORT RESIDENTIAL SOUND INSULATION PROGRAM
MEETING MINUTES
WEDNESDAY, SEPTEMBER 7, 2022
1020 S. PLANT ROAD
WHEELING, IL 60090
6:00 PM**

I. Welcome and Opening Remarks

Executive Director, Jeff Miller, welcomed everyone and turned the meeting over to Penny Merritt from C&S Companies.

In Attendance: Jeffrey Miller – Executive Director
 Penny Merritt – C&S Companies, Project Manager

II. Residential Sound Insulation Program (RSIP) Update

- A. Penny Merritt, Project Manager, offered the RSIP update:
- If you need an application, please call or email Penny at 847-947-8392 or pmerritt@cscos.com.

III. Questions and Answers

Mary, Glenview Resident, questioned why it was a 65 decibels contour area, because their home should qualify due to the noise and air traffic directly above them. Jeff and Penny explained that the FAA are the ones setting the regulations and that 65 decibels is the minimum point for sound insulation. They will not allow sound insulation outside of that established contour.

The resident was concerned about cargo aircrafts flying out from PWK. Jeff stated that we are not able to handle large cargo aircrafts.

Steve Neff, Wheeling Resident, asked when the program will be back up and running, and if the FAA was supportive of the project. Jeff and Penny assured the resident that the program is supported by the FAA. They are unsure of a timeline, but the airport has bi-weekly meetings with the FAA. The airport is working as fast as possible to return to the sound insulation program.

IV. Adjournment

Jeff thanked everyone who attended. The meeting was adjourned at 7:05 p.m.

Respectfully submitted,
Elizabeth Colht
Administrative Assistant

Pilot Phase

Pilot Phase consists of 9 single-family homes

- Post-noise testing was conducted on all 9 homes on July 20-21.
- All 9 homes passed with 5 dB or greater reduction overall.
- The homes are currently under the one-year workmanship warranty period, which will conclude April of 2023.
- Manufacturer warranties will continue as defined by each manufacturer

3

What's Next?

Moving Forward

- With the conclusion of the Pilot Phase, FAA informed CEA they were exercising their ability to review the Program.
- CEA is working closely with the FAA to determine if we can proceed with Phase One during the review process.
- CEA is committed to this Program and working diligently with the FAA to secure a timeline as quickly as possible.
