

## **Bluetooth Access Credential Instructions Setup**

 You will receive an email from <u>notifications@wirelesscredentials.com (Wireless Credentials)</u> with the subject line "Access Your Mobile Credential" when your credential is issued by the Airport.

2) Using your mobile device, open the email from notifications@wirelesscredentials.com

3) Click <u>'Complete Account Setup'</u> button below to install the ICT Protege Mobile App using your Mobile Device.

- 4) If the link does not work, you can also download the App via clicking one of the links below.
  - a. <u>Protege Mobile on the App Store (apple.com)</u>
  - b. Protege Mobile Apps on Google Play

5) Once the App is installed, click 'Redeem Invitation Code'. Your invitation code will be listed in your email from notifications@wirelesscredentials.com.

## **USE INSTRUCTIONS**

1) Upon arriving at the gate servicing your permitted area you will find the black ICT branded keypads as shown below;

2) Make sure the ICT – ProtegeMobile application <u>is selected on your phone or at least</u> running in the background. <u>Your phone's **Bluetooth is also REQUIRED to be on** for this system to work.</u>

- 3) With the application running on your phone, touch the card reader with your phone to trigger the access control system.
  - a. The **GREEN** light on the keypad will illuminate if access is granted and the phone will vibrate signaling a valid entry.
  - b. A **RED** light on the keypad signals a denied entry.

Any issues? Please contact PWK Airport Operations, ops@chiexec.com
