# CHICAGO EXECUTIVE AIRPORT

Access Control Map

- The following maps are shown below where individuals credentialled by the Chicago Executive Airport may operate depending on where their access is granted.
- Please note that if you are unsure of anything, please contact Airport Operations for clarification.
- All automatic vehicle gates have vehicle loop detectors for free exit and additionally have access keypads inside of the gates near the gate operators.
- Please note, most gate activities are recorded.
- Please view the general rules at the bottom of this memo for some of the regulations related to access control.

General Rules

- **When entering or exiting any gate whether in a vehicle or in person, <u>the gate must fully close behind you before proceeding.</u>**
- **DO NOT allow anyone to piggy back/tailgate you through the airport gates.**
- Any individual (credentialed or not) entering in the Airport grounds <u>does</u> not have authorization to access the Airport Movement Area (Runways and Taxiways) with vehicles individuals may only do so with via aircraft in accordance with the appropriate Federal Aviation Regulations.
- Chicago Executive Airport reserves the right to limit, suspend, or revoke access credentials at any time without notice or warning. This can further lead to revocation of permits, leases, and/or agreements with the Airport Administration.
- The Airport may tow, remove, or cause to be removed from the Airport any vehicle that is disabled, abandoned, creates a safety risk, and/or parked in violation of the Rules and Regulations at the vehicle operator's risk and expense and without liability for damage that may result from such removal.
- Vehicles shall not be parked or stopped in such a manner to obstruct an Airport access gate, taxiway, taxilane, and/or obstruct access to hangars, parked aircraft, and/or parked vehicles. Vehicles must be parking in designated parking areas.
- Access credential holders are responsible for all activities, actions, and behavior or their partners, passengers, employees, and guests while inside of the gates of Chicago Executive Airport.
- Aircraft always have the right of way over personnel and vehicles. Please use caution around aircraft as the engines may be started at any time.
- Airport Operations reserves the right to limit access, suspend, or revoke access credentials at any time without notice or warning.
- Chicago Executive Airport Rules & Regulations in which can be found at https://www.chiexec.com/documents/.
